**MILLENNIUM DIGITAL MEDIA SYSTEMS, L.L.C.  
SUBSCRIBER ACKNOWLEDGEMENT REPORT  
SEPTEMBER 1, 2005**

NOW COMES, Millennium Digital Media Systems, L.L.C. (“Millennium”) and pursuant to the Enforcement Bureau’s Further Guidance<sup>1</sup> in this matter files this Subscriber Acknowledgement Report.

**A. Compliance with Notice and Warning Sticker Requirements**

Millennium, as explained in its August 10, 2005 filing,<sup>2</sup> has provided the required notice and warning stickers to its customers since implementation of the service and thus provided the required notice and stickers to 100% of its customer base by the July 25, 2005 deadline.

**B. Percentage of Customers that have Submitted Affirmative Acknowledgements**

Millennium has received affirmative acknowledgments from 91% of its customer base. Millennium anticipates receiving affirmative acknowledgements from the remaining 9%, thus achieving 100%, within the Commission’s September 29, 2005 timeframe.

---

<sup>1</sup> Public Notice DA 05-2358, *Enforcement Bureau Provides Further Guidance to Interconnected Voice Over Internet Protocol Service Providers Concerning Enforcement of Subscriber Acknowledgement Requirements*, Released August 26, 2005.

<sup>2</sup> Millennium Digital Media Systems, L.L.C. Subscriber Notification Report, filed August 10, 2005, *In the Matter of IP Enabled Services and E911 Requirements for IP-Enabled Service Providers*, WC Docket 04-36 and WC Docket No. 05-196.

**C. Description of Plans if Customer Does not Submit Affirmative Acknowledgement**

Millennium plans to continue sending additional e-mail notifications, letters and personally calling customers to obtain affirmative acknowledgements from the remaining 9% of its customer base. Millennium has noticed that there is some correlation between those who have not provided confirmation and those who are delinquent in paying for the service and believes that such customers may be in the process of churning and thus not responding. Thus, Millennium is hopeful that by September 29, 2005 all active customers will have responded and provided the Commission required acknowledgement. Millennium has the ability to suspend service using a "soft" disconnection whereby the customer would only be able to place 911 calls or calls to Millennium's customer service center. If the Commission orders service disconnected Millennium would initially suspend service via soft disconnect.

Respectively Submitted,

**Millennium Digital Media Systems, L.L.C.**
